Re: Opposition to FDA Attempt to Limit Competition and Health Choices  
Docket No. 98N-1265

1. I resent lobbyist inspired attempts to limit my health freedom. This is nothing more than an attempt by large corporations to pirate market share other than by free market competition.
2. I am using a prescription prepared by Women's Health America that has significantly reduced my estrogen replacement symptoms (e.g., bloating, weight gain, yeast overgrowth, fatigue, etc.).
3. The corporate sponsors of this MOU don't want to offer me the options I need.
4. What exactly is your excuse for promulgating the above MOU at this time?
5. The term "inordinate amount" appears in your MOU referring to prescriptions shipped out of state by specialized pharmacies. Why and for whom are you attempting to limit free trade and competition? Will this limit ALL interstate prescription shipping operations or just my supplier? What exactly do you mean by "inordinate"??? What level of lost market share is acceptable to your corporate sponsors?? Who originally drafted this MOU?
6. If the corporate sponsors of this MOU want the meager profits my current supplier is making, they should form a similar unit and offer similar services. Hey, maybe they could be price competitive??
7. Thank you for your kind consideration of my opinions.

Sincerely,

  
Evelyn Culver
